AYAN IMRAN

120 Kingston St, Boston, MA 02111 | imran.aya@northeastern.edu | (646) 269-6959 | LinkedIn | Portfolio

EDUCATION

Northeastern University |Boston, MA May 2027

Bachelor of Science in Economics and Data Science

Relevant Coursework: Econometrics, Public Finance, Money and Banking, Monetary and Fiscal Policy, Foundations of Data Science, Information Visualization, Contested Economic Issues, Machine Learning & AI, Finance Market Structure

PROFESSIONAL EXPERIENCE

Goodwin | Boston, MA July 2026 – Present

AI Operations Co-op

- Designed an AI agent to centralize operational knowledge at a leading global law firm, structuring internal process documentation into a reusable reference base for faster and consistent handling of recurring service requests.
- Built an Excel VBA and macro-based workflow to automate recurring operational tracking, standardizing repetitive data processing, status tracking, and reporting while cutting ~5+ hours of manual work per week.
- Migrated ~3,000 legacy badge records into a standardized Power Query workflow to support the firm's transition to mobile badging, improving data consistency and reducing manual reconciliation across systems.

MCB Bank | Lahore, Pakistan May 2026 – July 2026

Asset Management Intern, Mutual Funds Division

- Supported the MCB Pakistan Stock Market Fund, an open-end equity fund with ~PKR 38.8B (~$137M) in AUM, conducting daily NAV analysis and tracking performance against the KSE-100 and peer equity funds.
- Prepared fund fact sheets, daily NAV reports, and periodic regulatory filings for the fund in compliance with SECP and MUFAP requirements, ensuring accurate and timely disclosures to investors and regulators.
- Researched listed Pakistani equities across sectors including banks and cements to support the fund's active stock-selection process, during a period in which the fund returned ~51% against a ~44% benchmark (KSE-100).

Patient First.AI | Boston, MA July 2025 – Aug 2025

Data Analyst, Summer Intern

- Assessed technical integration viability across 50 state immunization registries, scoring each on authentication, messaging standards, and complexity (1 to 5) to build a consistent framework for screening partnership targets.
- Redesigned and prototyped a multistate immunization upload interface in Figma, restructuring the submission flow and validation steps to cut user error by 28% and improve record accessibility by 35% in usability testing.

LEADERSHIP AND EXTRACURRICULAR

Inflation Shocks and Equity Factor Returns Jan 2026

Research Paper: Money & Banking

- Authored an independent research paper on how the 2022 inflation shock reshaped equity factor returns across U.S. markets, using the 2020 to 2024 period as a natural experiment to show that value outperformed growth because growth stocks behave as long-duration assets whose future cash flows are exposed to rising interest rate

Haulo (gethaulo.com) | Boston, MA February 2026 – Present

Founder & Developer

- Launched a student furniture marketplace with AI-powered listing generation via Claude Vision that auto-fills titles, descriptions, and pricing, cutting listing time from 5+ minutes to under 60 seconds, an ~80% reduction.
- Created a managed-marketplace model with integrated delivery, commission processing, and buyer–seller messaging, drove go-to-market across Boston campuses to reach 100+ listings and ~$4.3K in transaction volume.

TriageAI | Boston, MA April 2026 – Present

- Developed and deployed a production-grade AI operations platform with four autonomous agents that automatically categorize and route facility requests, achieving 98% classification accuracy at $0.0046 per decision.
- Engineered responsible-AI safeguards including PII redaction, human-in-the-loop approval, and audit logging.
- Implemented duplicate detection via sentence-transformers and a ChromaDB vector index at 20ms latency.

Northeastern EconPress | Boston, MA Sep 2023 – Present

Editorial Team

- Selected from 50+ students to review and edit articles on economic and market topics for a campus publication.
- Served on the editorial team of a student-run economics publication, evaluating pitches and refining coverage.

SKILLS & INTERESTS

Skills: Excel VBA, Financial Modeling/Analysis, Stata, Python, LangChain, React, Next.js, Supabase, SQL, Tailwind CSS

Other Activities: Gold Medal Informatics & CS Olympiad, PAKSA, Pak Care Foundation (Volunteer)

Interests: Golf, Community Service, Formula 1, Data Science Applications, Watches, Music, Cricket, Travelling
